## DreamAuthentics Katana: Mini Arcade

Do you want to have the arcade experience in your home, but don't have the room for a full-sized cabinet? The DreamAuthentics Katana has a built in 17-inch flat display and classic joystick/button controls. It is built around built around a Windows PC with DreamAuthentics' proprietary software package that includes over 200 arcade classics like Dig Dug and 1942 as well as titles from the Atari 2600. There's also a jukebox application that mimics the look and flavor of the type you'd find in your neighborhood pub, controlled by authentic buttons on the front.
