For the BEST HOME THEATER

8 PAC-MAN FEVER The pint-size Dreamauthentics' Katana makes your unhealthy obsession with classic video games seem normal again. It comes loaded with 200 video games and also allows for Xbox, PlayStation and PC play on its 17-inch screen. That should be enough to give you some serious thumb blisters, in which case you can use the Katana to spin DVDs, play music or surf the web. *Starts at $2,495, www.dreamauthentics.com*
