Dream Authentics Arcade Cabinets

Here is another option for those of you looking to bring the classic arcade experience to your game room. Dream Authentics has created a series of game platforms that use high quality classic arcade controls and are compatible with the MAME emulator. They have 4 base models: the Excalibur, the Sting, the Ultra Quad, and the Eladius. The Excalibur and Sting are 2 player machines and the Ultra Quad and the Eladius are 4 players. Cabinets range from $3,495 to $5,995 and can be customized with many different options including light guns, steering wheels, and even cup holders.
