Katana From DreamAuthentics

Kids and dads who are still kids at heart can have their dream entertainment destinations at home. The **Katana, DreamAuthentics**' newest addition to their lineup of the completely customizable arcade cabinets, is an arcade cabinet, jukebox, computer and DVD player all in one!

Loaded with nearly 200 video games, the **Katana** will make Dad and kids feel like they're in an authentic arcade from the 80's and its compact design will keep Mom happy. **The Katana** is designed to sit on a table top, allowing dads and kids to enjoy arcade classics without dedicating an entire room to a full-size cabinet. **The Katana** is completely customizable both inside and out—each customer uses **DreamAuthentics**' unique online configurator to customize their personal gaming cabinet, from the marquee to the joystick. **The Katana** comes standard with **DreamAuthentics'** exclusive jukebox feature which includes classic jukebox style buttons on the front of the cabinet. This replicates the look of a commercial music jukebox while incorporating the technology of current MP3 software. **The Katana** features a PC–based game engine so you can play any off the shelf PC game, surf the net or watch a DVD. This is the ultimate gadget for families!

The Katana offers great family entertainment at home, giving dads and kids a great way to bond. They can play both games that Dad grew up with at the arcade and kid's favorite from today-- XBOX, PlayStation and Nintendo Wii are all compatible with the **Katana**. Hey, who doesn't want the chance to feel like their a teenager at an arcade again with a great game of Ms. Pac Man, Asteroids, Pong or Dig Dug?
