DreamAuthentics Katana, $2,495

Even if you weren't a child of the '80s, you can revive pre-Wii gaming with such Atari classics as *Pac-Man, Galaga* and *Dig Dug*. The joystick, buttons and trackball do an excellent job of replicating the feel of an arcade machine for one or two players. To complete your retro illusion, load the Katana's digital jukebox with Billy Idol to blast as your victory music. *For more info, go to dreamauthentics.com.*
